DETAILED ACTION

1. Applicant's Amendment filed 12/22/2004 has been reviewed and placed of record in the file.

Examiner's Amendment

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

3. This application is in condition for allowance except for the presence of claims 2-3, 5, 8, 10, and 12-25 non-elected without traverse. Allowed claims 1, 4, 6-7, 9, and 11 do not contain a generic or linking claim. Accordingly, claims 2-3, 5, 8, 10, and 12-25 have been cancelled.

Allowable Subject Matter

4. Claims 1, 4, 6-7, 9, and 11 (to be renumbered 1-6) are allowable over the prior art of record.

The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach or render obvious a semiconductor device with all limitations as recited in claim 1, comprising a semiconductor substrate, a collector formed thereon, an insulation film having an opening that corresponds to the collector formed on the semiconductor substrate, a conductive

Art Unit: 2818

film on the insulation film, a semiconductor film having a first portion in contact with the collector and a second portion in contact with a side surface of the conductive film, and an emitter on the semiconductor film, the first portion being formed of single crystal and the second portion of polycrystal, and the second portion having a thickness, in a vertical direction relative to the side surface of the conductive film, one to two times as thick as a thickness of the first portion.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
